I'm starting the 7-Day DevOps challenge!

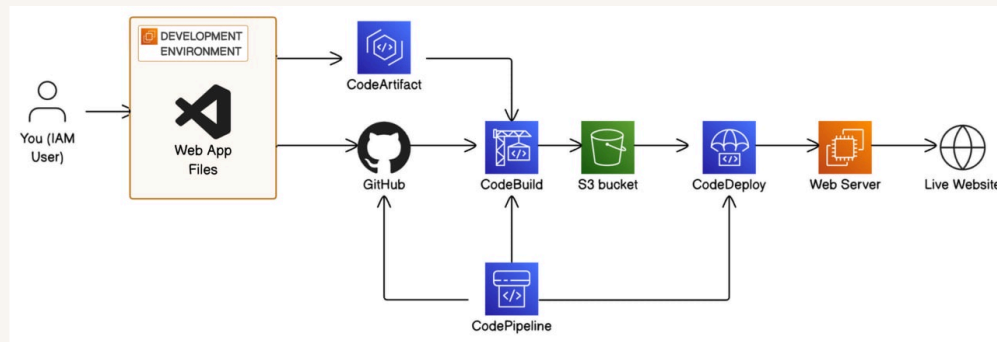

Amirul Zaol-kefli

I'm building a CI/CD pipeline in 7 days

In this DevOps challenge, I'm learning about DevOps engineering, CI/CD Pipeline. By the end of the 7 days, I will have learnt how to be a DevOps Engineer and build my own CI/CD pipeline.

Hold me accountable!

I will set aside a Thursdays every week to work on this challenge. I will keep myself accountable by working on this every Thursday. My reward for completing this DevOps challenge will be to finally learn how to be a dev ops engineer.

What is DevOps?

DevOps is all about getting teams to build and deploy code faster without sacrificing reliability. DevOps engineers implement DevOps practices in their organization by making automated pipelines, containerize application and Turn cloud infrastructure

What is CI/CD?

CI/CD stands for Continuous Integration/Continuous Delivery. This process helps teams by providing stable software builds to others while working on new features.

Excited to share my progress - do this challenge with me!
